PPS POLICY EQUALITY SCREENING FORM

The Legal Background

Under section 75 of the Northern Ireland Act 1998, the PPS is required to **have due regard to the need to promote equality of opportunity:**

- between person of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and,
- between persons with dependants and persons without¹.

Without prejudice to the obligations set out above, the PPS is also required to:

- **have regard to the desirability of promoting good relations between persons of different religious belief, political opinion or racial group; and**
- **meet legislative obligations under the Disability Discrimination Order and the Human Rights Act.**

Introduction

1. This form should be read in conjunction with the Equality Commission's revised Section 75, "A Guide for Public Authorities" April 2010 and available via the following link [S75 Guide for Public Authorities April 2010](#). **Staff should complete a form for each new or revised policy for which they are responsible (see page 6 for a definition of policy in respect of section 75).**
2. The purpose of screening is to identify those policies that are likely to have an impact on equality of opportunity and/or good relations, and will help improve the organisation's service provision through a systematic review of all services, policies, procedures, practices and/or decisions. It will also help determine whether an Equality Impact Assessment (EQIA) is necessary.

¹A list of the main groups identified as being relevant to each of the section 75 categories is at Annex A of the document.

Screening should be introduced at an early stage when developing or reviewing a policy.

3. The lead role in the screening of a policy should be taken by the policy decision-maker who has the authority to make changes to that policy and should involve, in the screening process:
 - other relevant team members;
 - those who implement the policy;
 - staff members from other relevant work areas; and
 - key stakeholders.

4. The first step in the screening exercise, is to gather evidence and relevant data to inform the screening decisions. Relevant data may be either quantitative or qualitative or both (this helps to indicate whether or not there are likely equality of opportunity and/or good relations impacts associated with a policy). Relevant information will help to clearly demonstrate the reasons for a policy being either 'screened in' for an equality impact assessment or 'screened out' from an equality impact assessment.

5. Screening provides an assessment of the likely impact, whether 'minor' or 'major', of its policy on equality of opportunity and/or good relations for the relevant categories. In some instances, screening may identify the likely impact is none.

6. The absence of evidence does not indicate that there is no likely impact but if none is available, it may be appropriate to consider subjecting the policy to an EQIA.

7. The Equality Commission has developed a series of four questions, included in Part 3 of this screening form with supporting sub-questions, which should be applied to all policies as part of the screening process. The questions should assist in identifying those policies that are likely to have an impact on equality of opportunity and/or good relations.

Screening decisions

8. Completion of screening should lead to one of the following three outcomes. The policy has been:
 - i. 'screened in' for equality impact assessment;
 - ii. 'screened out' with mitigation or an alternative policy proposed to be adopted; or
 - iii. 'screened out' without mitigation or an alternative policy proposed to be adopted.

Screening and good relations duty

9. The Equality Commission recommends that a policy is 'screened in' for equality impact assessment if the likely impact on **good relations** is 'major'. While there is no legislative requirement to engage in an equality impact assessment in respect of good relations, this does not necessarily mean that equality impact assessments are inappropriate in this context.

Staff should complete a form for each of new or revised policy for which they are responsible (see page 6 for a definition of policy in respect of section 75).

If you have any questions regarding the screening exercise or S75 in general please contact the Equality Officer in Central Management Unit at the address given below.

Part 1

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of section 75. To be on the safe side it is recommended that you consider any new initiatives, proposals, schemes or programmes as policies or changes to those already in existence. It is important to remember that even if a full EQIA has been carried out in an “overarching” policy or strategy, it will still be necessary for the policy maker to consider if further screening or an EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and terms of reference well defined. You must take into account any available data that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the s75 categories.

Policy Scoping

10. The first stage of the screening process involves scoping the policy under consideration. The purpose of policy scoping is to help prepare the background and context and set out the aims and objectives for the policy, being screened. At this stage, scoping the policy will help identify potential constraints as well as opportunities and will help the policy maker work through the screening process on a step by step basis.
11. Public authorities should remember that the Section 75 statutory duties apply to internal policies (relating to people who work for the authority), as well as external policies (relating to those who are, or could be, served by the authority).

Part 2(b)

OBLIGATIONS UNDER THE DISABILITY DISCRIMINATION ORDER

Under section 49A of the Disability Discrimination Act 1995, public authorities, when carrying out their functions must have due regard to the need to:

- **promote positive attitudes towards disabled people; and**
- **encourage participation by disabled people in public life.**

Questions 5 and 6 below relate to these two areas.

Consideration of Disability Duties

23. Does this proposed policy / decision provide an opportunity for PPS to better promote positive attitudes towards disabled people?

The revised Code outlines the provisions for those with additional needs. The purpose of the Code is to endorse the independence, fairness and effectiveness of the prosecution service to the benefit of the Northern Ireland community in its entirety. The Code should have no adverse impact on the participation of any group in society in public life

24. Does this proposed policy / decision provide an opportunity for PPS to actively increase the participation by disabled people in public life?

As above.

Part 3

SCREENING QUESTIONS

Introduction

25. In making a decision as to whether or not there is a need to carry out an equality impact assessment, consider questions 1-4 listed below.
26. If the conclusion is **none** in respect of all of the Section 75 equality of opportunity and/or good relations categories, then the decision maybe to screen the policy out. If a policy is 'screened out' as having no relevance to equality of opportunity or good relations, give details of the reasons for the decision taken.
27. If the conclusion is **major** in respect of one or more of the Section 75 equality of opportunity and/or good relations categories, then consideration should be given to subjecting the policy to the equality impact assessment procedure.
28. If the conclusion is **minor** in respect of one or more of the Section 75 equality categories and/or good relations categories, then consideration should still be given to proceeding with an equality impact assessment, or to:
- introduce measures to mitigate the adverse impact; or
 - the introduction of an alternative policy to better promote equality of opportunity and/or good relations.

Factors that would indicate a conclusion in favour of a 'major' impact

29. (a) The policy is significant in terms of its strategic importance;

- (b) Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and it would be appropriate to conduct an equality impact assessment in order to better assess them;
- (c) Potential equality and/or good relations impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;
- (d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are concerns amongst affected individuals and representative groups, for example in respect of multiple identities;
- (e) The policy is likely to be challenged by way of judicial review;
- (f) The policy is significant in terms of expenditure.

Factors that would indicate a conclusion in favour of ‘minor’ impact

30. (a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;
- (b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;
- (c) Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;
- (d) By amending the policy there are better opportunities to better promote equality of opportunity and/or good relations.

Factors that would indicate a conclusion in favour of none

31. (a) The policy has no relevance to equality of opportunity or good relations.
 - (b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity or good relations for people within the equality and good relations categories.
32. Taking into account the evidence presented above, consider and comment on the likely impact on equality of opportunity and good relations for those affected by this policy, in any way, for each of the equality and good relations categories, by applying the screening questions given overleaf and indicate the level of impact on the group i.e. minor, major or none.

Screening questions

<p>1. What is the likely impact on equality of opportunity for those affected by this policy, for each of the Section 75 equality categories? Minor/Major/None</p>

Sexual orientation	As above.	None
Men and Women generally	As above.	None

Political opinion		As above
Racial group		As above

Religious belief		No – There are no opportunities to better promote good relations within this policy.
Political opinion		As above
Racial group		As above

Additional considerations

Multiple Identity

33. Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities?

(For example; disabled minority ethnic people; disabled women; young Protestant men; and young lesbians, gay and bisexual people).

34. Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.

Part 4

Screening decision

35. If the decision is not to conduct an equality impact assessment, please provide details of the reasons.

The purpose of the Code is to endorse the independence, fairness and effectiveness of the prosecution service to the benefit of the Northern Ireland community in its entirety. The Code should have no adverse impact on the participation of any group in society in public life. However the PPS remains committed to monitoring and reviewing the operation of the Code over the coming years.

Therefore the Code has been 'screened out'.

36. If the decision is not to conduct an equality impact assessment, consider if the policy should be mitigated or an alternative policy be introduced.

See above

37. If the decision is to subject the policy to an equality impact assessment, please provide details of the reasons.

38. Further advice on equality impact assessment may be found in a separate Commission publication: Practical Guidance on Equality Impact Assessment.

Mitigation

39. When the public authority concludes that the likely impact is 'minor' and an equality impact assessment is not to be conducted, the public authority may consider mitigation to lessen the severity of any equality impact, or the introduction of an alternative policy to better promote equality of opportunity or good relations.
40. Can the policy/decision be amended or changed or an alternative policy introduced to better promote equality of opportunity and/or good relations?
41. If so, give the **reasons** to support your decision, together with the proposed changes/amendments or alternative policy.

N/A

Timetabling and prioritising

42. Factors to be considered in timetabling and prioritising policies for equality impact assessment.
43. If the policy has been ‘**screened in**’ for equality impact assessment, then please answer the following questions to determine its priority for timetabling the equality impact assessment.
44. On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

Priority criterion	Rating (1-3)
Effect on equality of opportunity and good relations	
Social need	
Effect on people’s daily lives	
Relevance to a public authority’s functions	

45. Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the public authority in timetabling. Details of the Public Authority’s Equality Impact Assessment Timetable should be included in the quarterly Screening Report.
46. Is the policy affected by timetables established by other relevant public authorities?
47. If yes, please provide details.

Part 5

Monitoring

48. Public authorities should consider the guidance contained in the Commission's Monitoring Guidance for Use by Public Authorities (July 2007).
49. The Commission recommends that where the policy has been amended or an alternative policy introduced, the public authority should monitor more broadly than for adverse impact (See Benefits, P.9-10, paras 2.13 – 2.20 of the Monitoring Guidance).
50. Effective monitoring will help the public authority identify any future adverse impact arising from the policy which may lead the public authority to conduct an equality impact assessment, as well as help with future planning and policy development.
