# Introduction

## The Public Prosecution Service

The Public Prosecution Service for Northern Ireland (PPS), which is headed by the Director of Public Prosecutions, is the principal prosecuting authority in Northern Ireland. In addition to taking decisions as to prosecution in cases investigated by the police, it also considers cases investigated by other statutory authorities, such as HM Revenue and Customs.

The primary role of the PPS is to reach decisions to prosecute or not to prosecute and to have responsibility for the conduct of criminal proceedings. A range of options is also available for dealing with offenders other than through prosecution. These options include cautions, informed warnings and youth conferencing. Prosecutors may also refer offenders to the National Driver Alertness Scheme or to a Community Restorative Justice Scheme.

For further information on the role and structure of PPS please visit [www.ppsni.gov.uk](http://www.ppsni.gov.uk). This includes a number of key policy statements, for example, the PPS Code for Prosecutors and Policy for Prosecuting Cases of Rape.

## Serious Crime Unit

The PPS Serious Crime Unit (SCU) was implemented in January 2016. The SCU, which is headed by an Assistant Director, deals with a range of the most serious offences including murder, manslaughter, rape and other serious sexual offences, modern slavery, human trafficking and related offences. Prior to January 2016, cases of this type would typically have been dealt with by the PPS regional teams. In terms of sexual crimes, the regions continue to deal with cases involving offences such as sexual assault, indecent exposure and voyeurism.

The majority of files submitted by the police to the PPS involving sexual offences are dealt with by the SCU (65% of all such files received in 2023/24).

## About this Bulletin

This bulletin presents key statistics in relation to the prosecution of sexual offences, including caseloads and prosecutorial decisions. It also includes data on the outcomes of prosecutions at court involving these offences.

The report provides information for the 2023/24 financial year (i.e. 1 April 2023 to 31 March 2024) and includes comparisons with 2022/23. Where appropriate, detailed notes have been provided which give an explanation of the relevant PPS processes and procedures. Please see Glossary, User Information and tables for further information.

The sexual offences data in this bulletin are provided across three broad offence categories, as follows:

- Rape.
- Other Sexual Offences.
- All Sexual Offences.

### Offence Classifications

Findings are presented across each of the accompanying tables for 'Rape', 'Other Sexual Offences' and 'All Sexual Offences' (where Official Statistics disclosure rules permit). The full range of offences covered and contained within each category is set out in the supporting documentation to this bulletin which is available on the PPS website at <https://www.ppsni.gov.uk/publications/statistical-bulletin-cases-involving-sexual-offences-2023/24>.

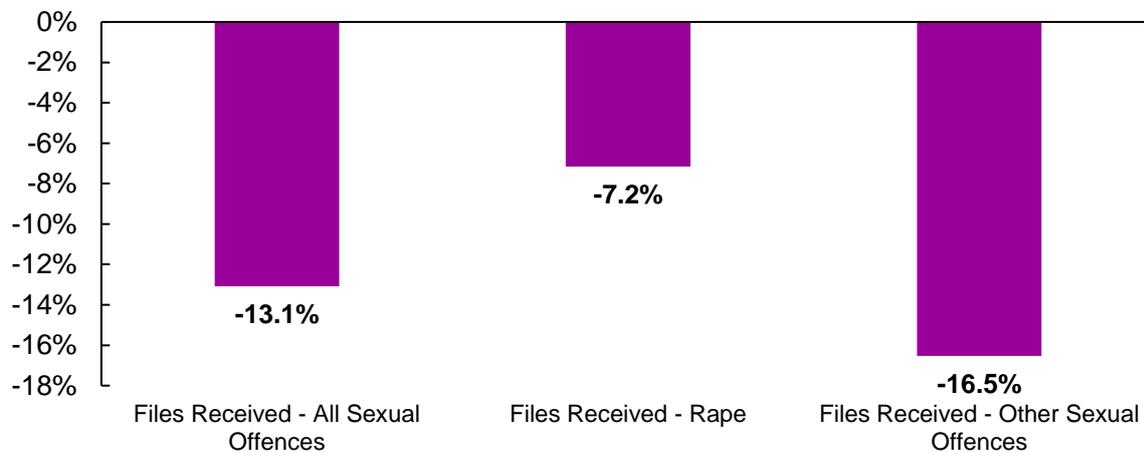

Users are asked to read the full details of the counting rules applied in the preparation of the statistics for this bulletin which are included within the 'Explanatory Notes' section in the accompanying tables.

## User Information

### Data Sources and Validations

The information presented in this bulletin is derived from the Case Management System (CMS), the main operational system in use within the PPS. This is a 'live' system with data being input on a daily basis.

It should be noted that the CMS is also linked to the CJSNI's Causeway data sharing mechanism. The first phase of Causeway ('DSM 0'), introduced in 2005/06, allowed police to submit files to the PPS electronically. The most recent phase ('DSM 1') was launched at the end of November 2009 and broadened the portfolio of information shared electronically. For example, PPS are now supplied with court results by the Northern Ireland Courts and Tribunals Service which feed into the PPS Case Management System via Causeway.

The information is extracted using Business Objects. It is then validated, and quality assured to ensure that the data are reliable and robust for use. Any inconsistencies are reported back to operational staff or to the PPS Information and Communications Technology Branch. If required, any necessary amendments are then made to the data.

### Rounding Conventions

Percentages have been rounded to whole numbers or to one decimal place and may not always sum to 100%. Where a base number is less than 50, percentages are not provided.

### Disclosure Control

Where small numbers (less than 3) within the tables have the potential to disclose sensitive information, disclosure controls have been applied and numbers less than three have been suppressed (see notes to individual tables).

### Official Statistics

These are 'Official Statistics' as defined in Section 6 of the Statistics and Registration Services Act 2007. Statisticians from the Northern Ireland Statistics and Research Agency are seconded to the PPS and are responsible for ensuring that the statistics produced comply with the Code of Practice for Official Statistics.

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the Code of Practice for Statistics that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by

## Changes to this Release

### Previous changes

In December 2022, this publication was revised with the data tables removed from the statistical report to improve user functionality. Tables can be found in the accompanying Excel document. Clarity and insight have been increased by introducing additional charts and graphs, compliant with accessibility guidelines.

The December 2022 edition also introduced additional breakdowns of suspect age and gender within the data tables and the release. This information was included based on user feedback.

## Glossary

**All Sexual Offences:** 'All Sexual Offences' includes a combination of rape and other sexual offences.

**Caution:** A *caution* is a formal reprimand administered by the police. Whilst it is not a conviction it is recorded on a person's criminal record.

**Conviction rates:** Conviction rates are calculated on the basis of the number of persons convicted as a percentage of all persons dealt with at court during the period.

**Crown Court outcomes:** The category '*acquitted*' includes the following outcomes: acquittals, acquittals by direction, No Bills, no evidence offered – defendant acquitted, left on books, proceedings stayed, unfit to plead – but found that he/she did not do the act, no case to answer - granted. '*Other*' Includes defendant deceased, withdrawal – all charges, bound over for not having shown cause, bound over where charge withdrawn, withdrawn due to diversionary route. It should be noted that if an individual is involved in more than one case which is resulted during this period, they will be counted as a separate defendant on each occasion.

**Decision information request (DIR):** A *decision information request (DIR)* is issued by PPS to police where the evidence and information contained in an investigation file is incomplete and a further written report or action is required before a prosecutorial decision can be taken.

**Diversiónary options:** Diversiónary options are only available to prosecutors if the defendant admits that he/she has committed the offence and agrees to accept and participate in the diversionary option.

**Diversiónary youth conference:** A *diversionary youth conference* is an alternative to prosecution in court and may be used in cases where the defendant is a youth. This type of restorative conference may involve a number of parties, including the defendant, the victim and police. A youth conference is a formal process, and although not a conviction, is recorded on a person's criminal record.

**Eightieth percentile:** *Eightieth percentile* is the number of days at which 80% of those persons included under counting rules have had a first decision issued. Eightieth percentile days for indictable prosecution decisions includes the time taken for the prosecutor's decision and for case preparation (i.e., where appropriate, ensuring that the case is ready for court) and include time taken for response from police to any decision information requests. In indictable cases case preparation includes time required for the preparation of committal papers which contain the evidence, such as statements, exhibits etc., to be presented to the Crown Court. It may also include consideration of duties of disclosure by the prosecutor and applications to be made to the court.

**File:** A file may refer to one or more individuals

**Full file requests:** *Full file requests* are designed to allow the PPS to ask the PSNI for a full file as defined in the relevant protocols.

**Indictable prosecution:** *Indictable prosecution* applies in the more serious offences which may be heard in the Crown Court.

**Informed warning:** *An informed warning* is a formal reprimand administered by police and is recorded on a person's criminal record.

**Magistrates' and Youth Court outcomes:** Data reflect the number of persons where PPS has taken a decision to prosecute summarily, i.e., defendants against whom charges were withdrawn prior to decision are excluded. The category '*acquitted*' includes the following outcomes: dismissed; no case to answer granted; and proceedings stayed. '*Other*' includes: defendant deceased; withdrawal – all charges; bound over for not having shown cause; bound over where charge withdrawn; withdrawn due to diversionary route. Excludes persons returned for trial in the Crown Court. It should be noted that if an individual is involved in more than one case which is resulted during this period, they will be counted as a separate defendant on each occasion.

**Median days:** *Median days* is the number of days at which 50% of those persons included under counting rules have had a first decision issued. Median days for indictable prosecution decisions includes the time taken for the prosecutor's decision and for case preparation (i.e., where appropriate, ensuring that the case is ready for court) and include time taken for response from police to any decision information requests. In indictable cases case preparation includes time required for the preparation of committal papers which contain the evidence, such as statements, exhibits etc., to be presented to the Crown Court. It may also include consideration of duties of disclosure by the prosecutor and applications to be made to the court.

**No Decision DIR:** A no decision DIR may issue when, on the evidence submitted by police in an investigation file, it is not possible to take a prosecution decision and it is not reasonable to issue a detailed DIR having regard to the number or type of deficiencies in the file.

**No prosecution:** *A decision for no prosecution* will be taken if the prosecutor decides that in any case being considered there is insufficient evidence or that it is not in the public interest to prosecute (see note regarding the Test for Prosecution below).

**Other sexual offences:** For files and disposals '*Other Sexual Offences*' includes files and disposals involving a sexual offence, but which is not an offence of rape.

**Post decision information request:** Post decision information requests are designed to allow

the PPS to ask the PSNI to gather additional evidential material or provide other information required at some further stage in the prosecution process (e.g., for trial).

**Primary offence:** Generally, the most serious offence in terms of the potential penalties in law.

**Prosecutorial decision:** More than one prosecutorial decision may be recorded against any individual within a case. Therefore 'type of decision' refers to the most serious decision issued, in the following order: Indictable prosecution; summary prosecution; diversion; and no prosecution.

**Prosecutorial Decisions Issued by Decision Type – Other Sexual Offences:** includes all decisions in respect of suspects charged or reported for an 'other' sexual complaint offence (i.e., excluding rape), including:

- Suspects prosecuted or dealt with by way of a diversion for an 'other' sexual offence; and
- Suspects not prosecuted for an 'other' sexual offence but prosecuted or dealt with by way of a diversion for a non-sexual offence.

**Prosecutorial Decisions Issued by Decision Type – Rape:** includes all decisions in respect of suspects charged or reported for an offence of rape (or attempted rape), including:

- Suspects prosecuted or dealt with by way of a diversion for an offence of rape;
- Suspects not prosecuted for the offence of rape but prosecuted or dealt with by way of a diversion for an 'other' sexual offence; and
- Suspects not prosecuted for the offence of rape or an 'other' sexual offence, but prosecuted or dealt with by way of a diversion for a non-sexual offence.

**Rape:** The '*Rape*' category includes files or disposals with an offence of rape (or attempted rape). Where a suspect has a complaint of rape in addition to one of the other sexual offences, this suspect is counted within the 'Rape' category only, and not within the 'Other Sexual Offences' category.

**Summary offence:** In general, *summary offences* relate to less serious criminal behaviour and are tried in the Magistrates' Court before a District Judge

**Summary prosecution:** *Summary prosecution* applies to cases which may be heard in the Magistrates' Courts.

**Summons:** A summons may be served on a defendant either by post, or via a personal summons served by the police. The defendant will be required to attend court on the date

stated on the summons. The large majority of offences can now be dealt with by way of a postal summons. The only exceptions relate to corporate defendants, vulnerable defendants and those defendants who have not responded to a postal summons.

More than one summons may be issued in respect of an individual defendant in a case. For example, if the defendant does not attend court on the day stated on an initial postal summons, this will generally be followed up by a personal summons served by police.

**Test for Prosecution:** Prosecutions are initiated where the prosecutor is satisfied that the Test for Prosecution is met. There are two aspects to the Test:

- a) Whether the evidence which can be offered in court is sufficient to provide a reasonable prospect of conviction (the evidential test); and
- b) Whether prosecution is required in the public interest (the public interest test).

Each of these stages must be separately considered but a decision whether or not a prosecution is in the public interest can only arise when the evidential test has been satisfied.
